- Amphenol Interconnect - Secunderabad

Facts & Figures

HISTORY

Amphenol was founded in 1932 as American Phenolic, a manufacturer of artificial fibers in Chicago. The original line of business led to plastic insulation materials, and then to connectors. The trade name Amphenol is firmly established.

FIGURES 2001

- US\$1,104 million net sales
- 53 manufacturing and assembly operations in Americas, Europe, and Asia
- Direct sales to thousands of OEM and EMS companies in more than 60 countries throughout the world and through a global network of electronic distributors
- More than 10,000 employees world-wide
- World-wide ISO-9001 certification

BRAND NAMES

AirLB
